

Omar Associates is a leader in building and repairing part handling systems. We have a complete line of specialized pneumatic vibratory drives. Omar Associates engineers and craftsmen design and build feed systems and pick and place systems to meet a variety of applications.

Vibratory Feeder Bowls

- Reline
- Retool
- Specialized pneumatic drives
- Fiberglass and steel springs

Vibratory Air Motors

- Silent & impact
- Low air consumption
- Rebuildable
- Direct replacements for Vibron/Burgess
- Complete line from .50 to 4.00 inch bore

Linear Feeders

- Retool
- Replacement parts
- Fiberglass and steel springs
